#### Report:

The HR Club organized its activity on 21st August 2025 outside the Dhariya Prabha Auditorium from 9.00 am to 2.30 pm for **MBA I Semester students (Batch 2025–27) in two slots** as part of Aarohan 2025. The activities focused on teamwork, listening, coordination, and communication. Two major activities were conducted: **Lead Loop** and **Clap Trap**.

**Lead Loop:** This activity was designed to highlight the importance of coordination, teamwork, communication, and trust within a team. Students actively participated in forming a chain, where effective listening and clear instructions were crucial to completing the task successfully. The exercise demonstrated how teamwork and clarity of communication reduce errors and build efficiency. **Clap Trap:** This activity emphasized listening skills and attentiveness. Students had to follow specific clap patterns and respond in sync with their peers. The challenge created fun-filled moments, but also highlighted how missing cues can disrupt the rhythm of teamwork. It reinforced the significance of active listening and concentration in group tasks.

**Outcome:** The participants thoroughly enjoyed the interactive activities and engaged with great enthusiasm. Effective listening, communication, and coordination are key to success in any collaborative effort. Students expressed that the activities not only provided entertainment but also meaningful insights into practical HR and workplace skills. Prizes were distributed to winners.

## Some Glimpses of the Event
